Annette,

I kept the ORD parties copied on the email to the OPPT workgroup leads short. Here is a forward for the CCTE folks involved of what was sent, which also includes some comments from CPHEA. Many thanks for the carefully thought out comments on the potential approaches for determining what PFAS to include in the TSCA 8(a) PFAS Data Call. It is much appreciated!

Subject: TSCA Section 8(a) PFAS Data Call rulemaking - PFAS Scope Document - ORD Comments on Potential Approaches for PFAS Scope

Hello, James and Hannah.

I provided OPPT's PFAS Scope document for the TSCA Section 8(a) PFAS Data Call rulemaking to a broader group of ORD experts for their consideration and input. Our experts reviewed the document and provided their carefully considered recommendations for how OPPT may want to approach determining what PFAS would be subject to this regulatory action. Please see the attached tracked comments on the document.

Our experts are ready and willing to assist OPPT in determining the best approach to take for this TSCA action and in developing the definition/criteria once it is chosen.

Please let us know if there are any questions.
